PROFILE

Salesforce Developer with **4.9 years of experience** building scalable solutions using Apex, LWC, Flows, and integrations. Strong experience in asynchronous Apex, Lightning UI customization, and secure data access. Focused on performance optimization, reusable component design, and delivering business-driven Salesforce solutions.

SKILLS

- Lightning Web Components
- Apex (Triggers, Classes, Async Apex)
- REST API Integration
- SOQL
- Salesforce Flow and Automation
- Salesforce Security Model
- Omnistudio

EXPERIENCE

Accenture, Packaged App Development Senior Analyst

01/2025 – Present
Pune, India

- Developed scalable Salesforce features using **Apex and Lightning Web Components**, supporting business workflows for 100+ users.
- Built **REST API integrations** between **Salesforce and 3+ external systems**, enabling secure real-time data exchange.
- Implemented **Batch Apex jobs processing 50k+ records per run** while **adhering to governor limits**.
- Designed and enforced **custom Apex Sharing logic** to meet complex data-access requirements beyond standard configuration.
- Automated business workflows using **Salesforce Flows**, reducing dependency on custom Apex code and improving maintainability.
- Created **bulk-safe Apex Triggers with a handler framework**, ensuring modular architecture and easier debugging.
- Produced technical documentation and solution notes, improving onboarding speed and cross-team collaboration.

Infosys, Senior Systems Engineer

06/2021 – 01/2025
Pune, India

- Built custom Salesforce functionality using **Apex, Lightning Web Components, and Flows**, improving user productivity and platform usability.
- Automated business processes through **Flow + Apex solutions**, reducing manual effort by **40%** across key workflows.
- Developed responsive **Lightning Web Components**, enhancing UI performance and user interaction for business users.
- Implemented **handler-based Apex architecture**, improving code reusability and simplifying long-term maintenance.
- Used **asynchronous Apex (Batch/Future/Queueable)** to improve scalability and handle background processing efficiently.
- Designed **custom objects, fields, and scalable data models** to support cross-functional business requirements.
- Strengthened system security through **profiles, permission sets, and sharing rules**, ensuring controlled data visibility.
- Participated in **code reviews, Git merges, and deployment validation**, improving release stability and reducing production issues.

CERTIFICATES

- Salesforce Certified Platform Developer 1
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator
- Salesforce Certified JavaScript Developer
